BUSINESS BRAIN · HOW DO I

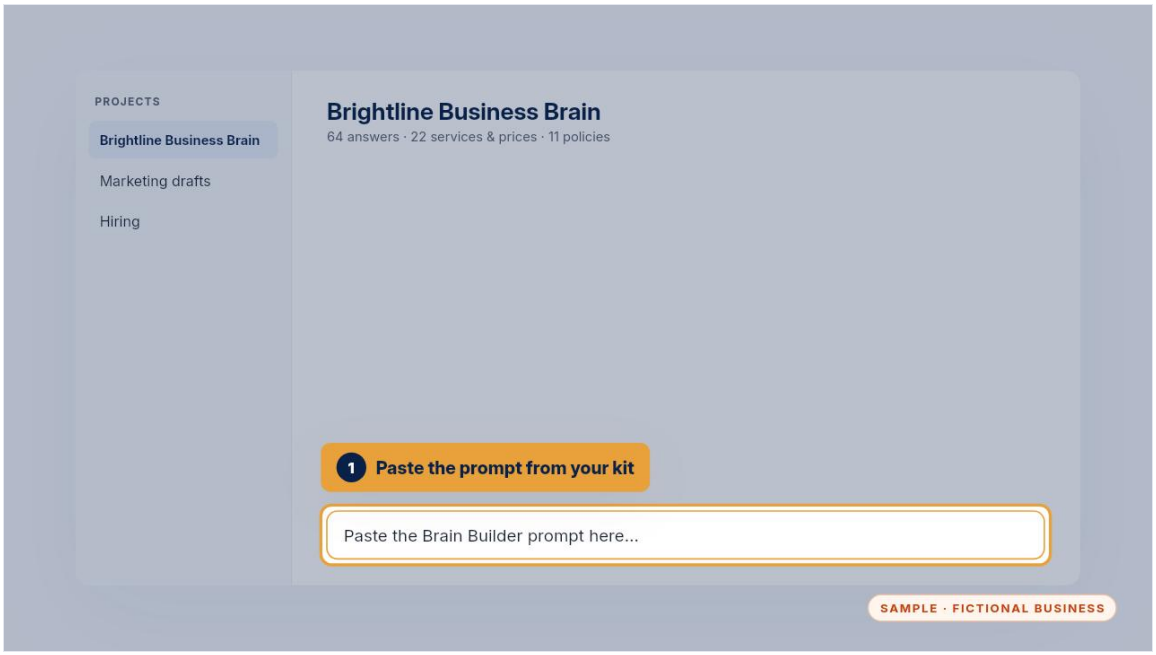

How do I use the Brain Builder prompt?

Let your AI tool interview you and fill in the workbook for you.

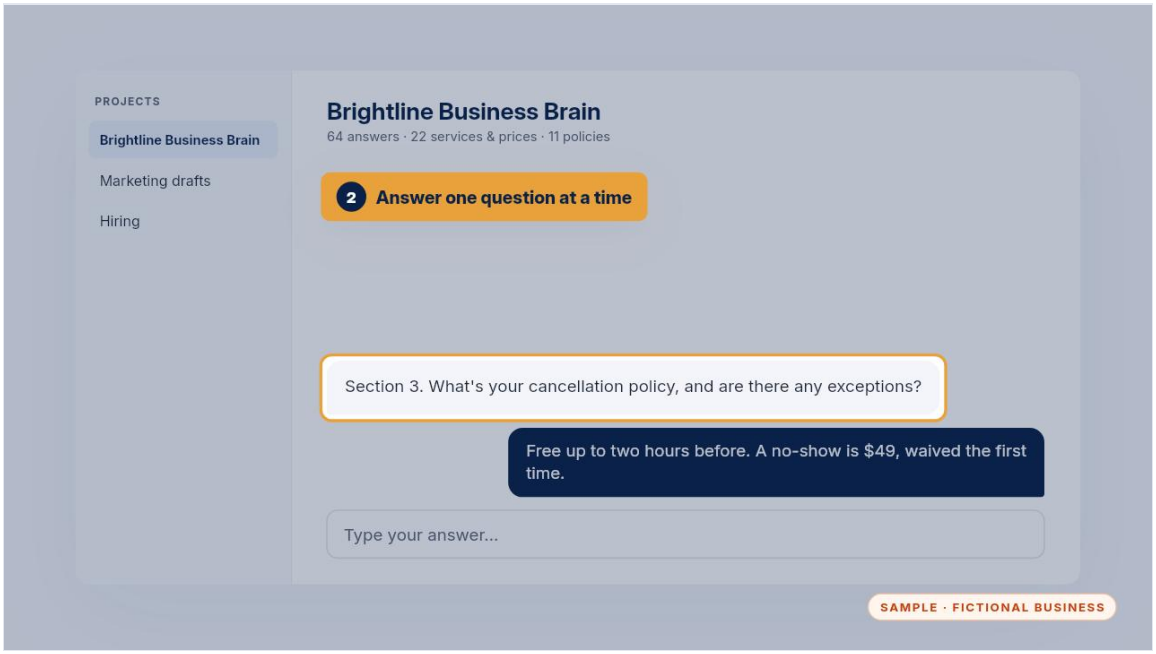

Watch the narrated video: https://openarmsolutions.com/guides/business-brain/use-the-brain-builder

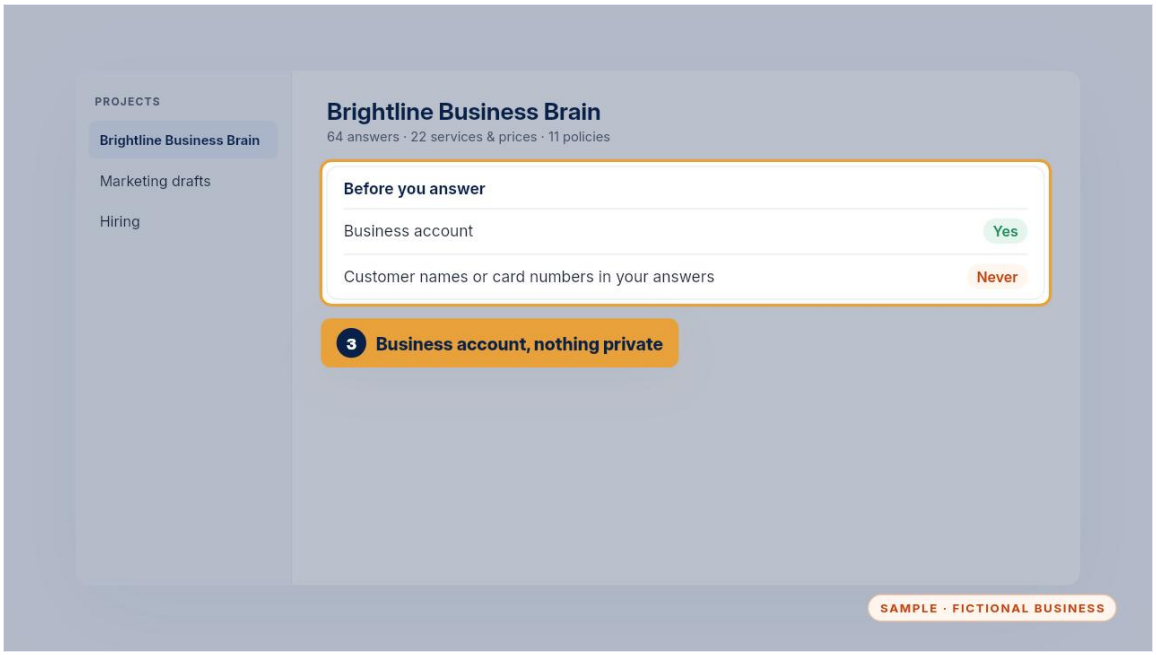

1. The Brain Builder prompt lets your AI tool interview you and fill in the workbook for you.

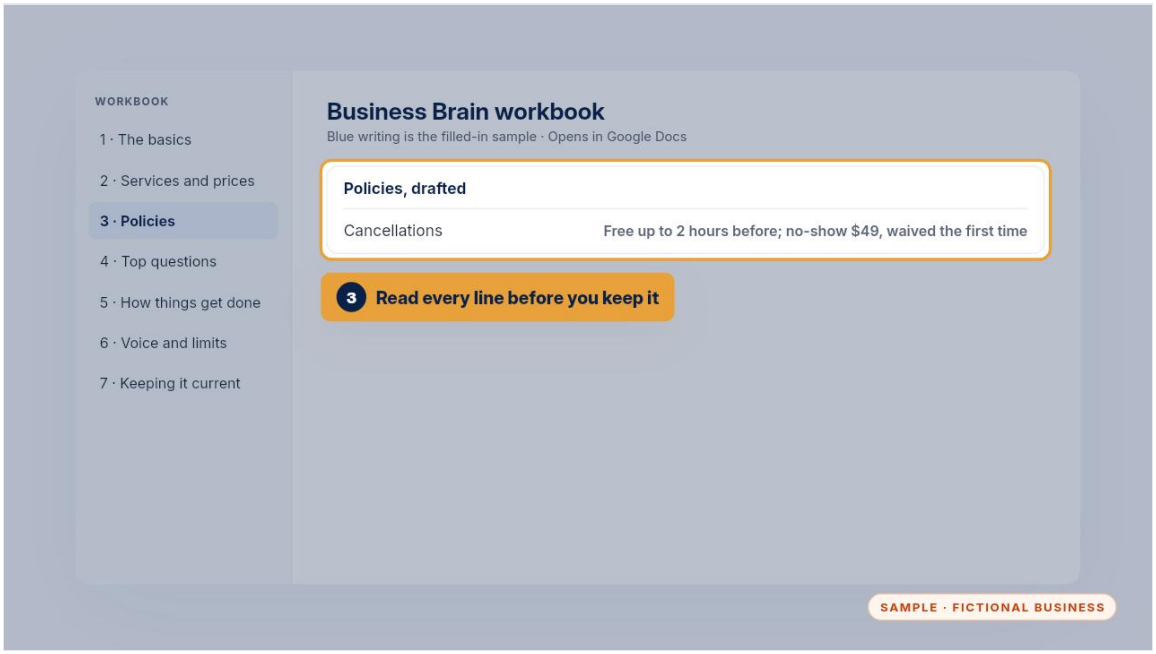

2 Open a new chat in your business AI tool and paste the Brain Builder prompt from your kit.

3 It asks one question at a time, section by section. Answer the way you'd explain it to a new hire, including the exceptions.

4 Use a business account for the interview, and keep customer names, card numbers and passwords out of your answers.

5 Read what it writes and correct anything it guessed. Then paste each section into your workbook and save it as one file.
