DOCUMENT DESK · HOW DO I

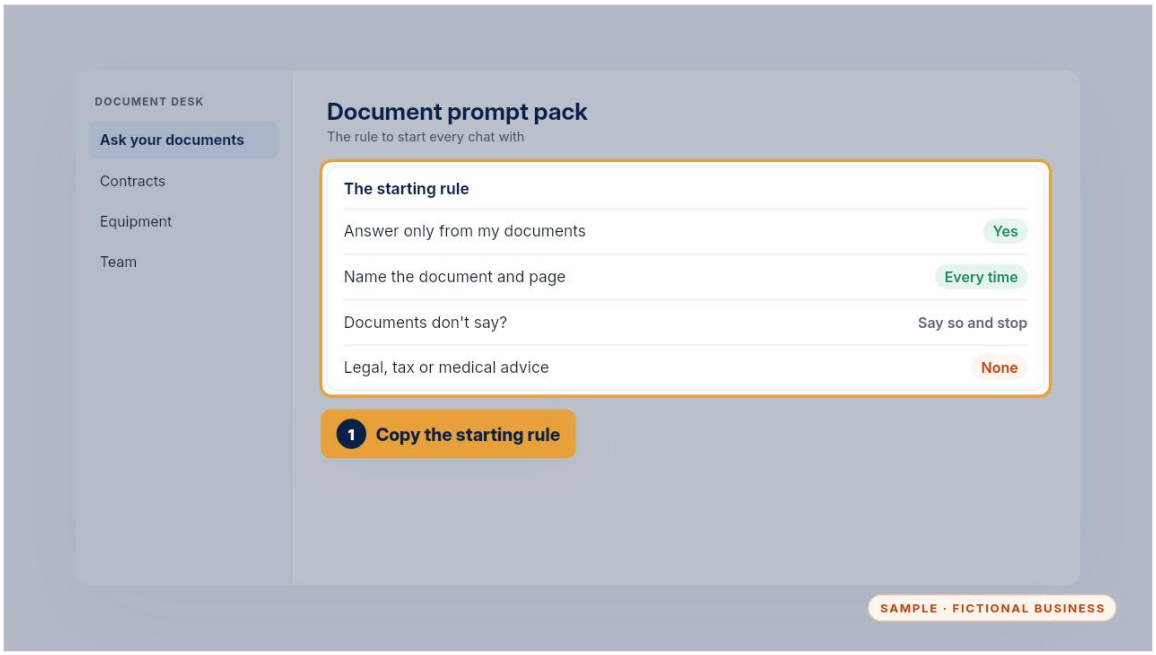

How do I paste the starting rule?

Add the prompt pack's starting rule so every answer cites a page.

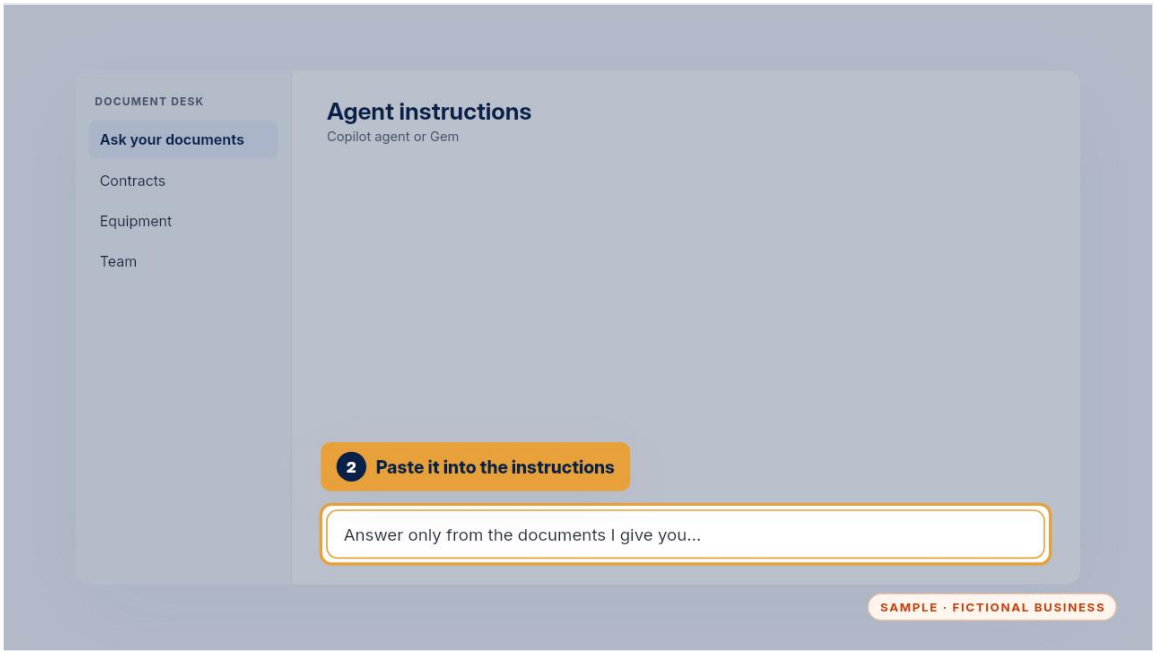

Watch the narrated video: https://openarmsolutions.com/guides/document-desk/paste-the-starting-rule

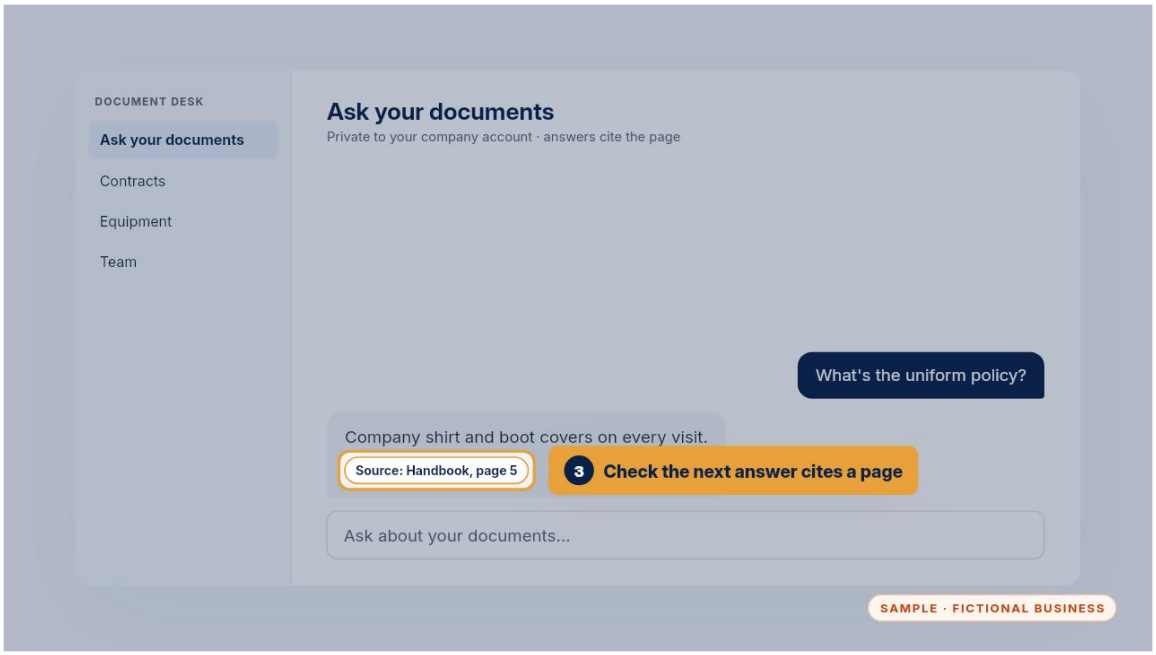

1. Every Document Desk chat starts with one rule from the prompt pack. Here's where it goes.

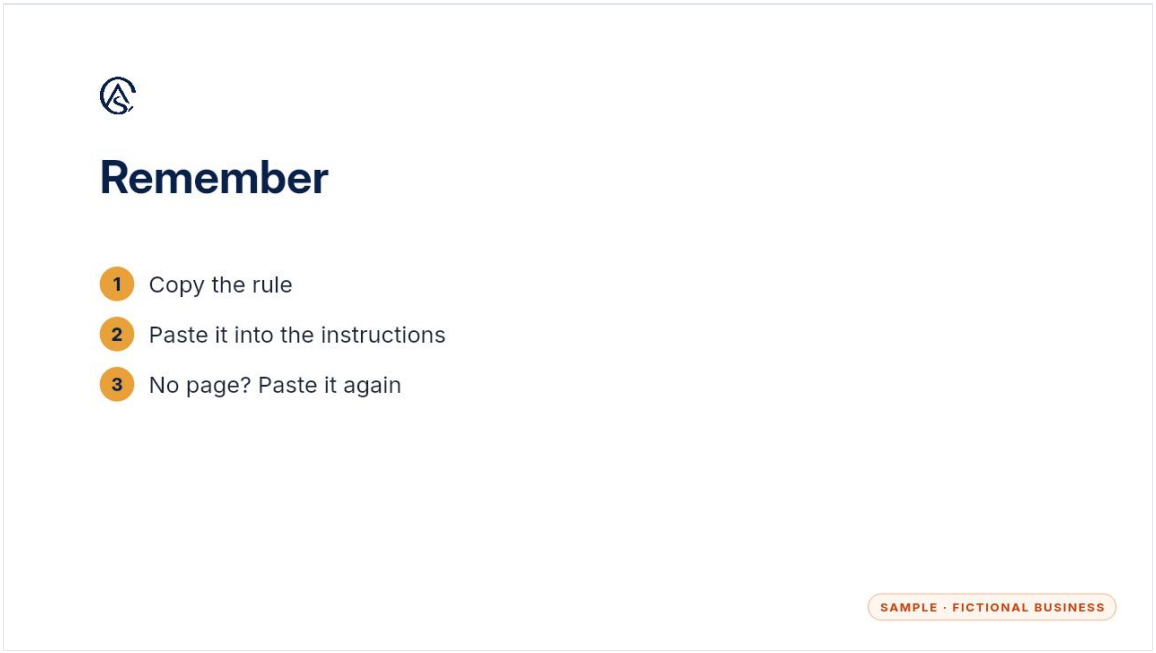

2 Copy the starting rule from the prompt pack. It keeps answers to your documents, makes them cite the page, and stops at the edge of what the documents say.

3 Paste it into the instructions of your Copilot agent or your Gem, so it applies to every chat. In a one-off chat, paste it first.

4 Ask a question and check the answer names a page. If one ever comes back without a page, paste the rule again.

5 Copy it, paste it into the instructions, and check for the page.
