1. Here's how to give someone access to your profile without sharing your password, including us for the Tune-Up.

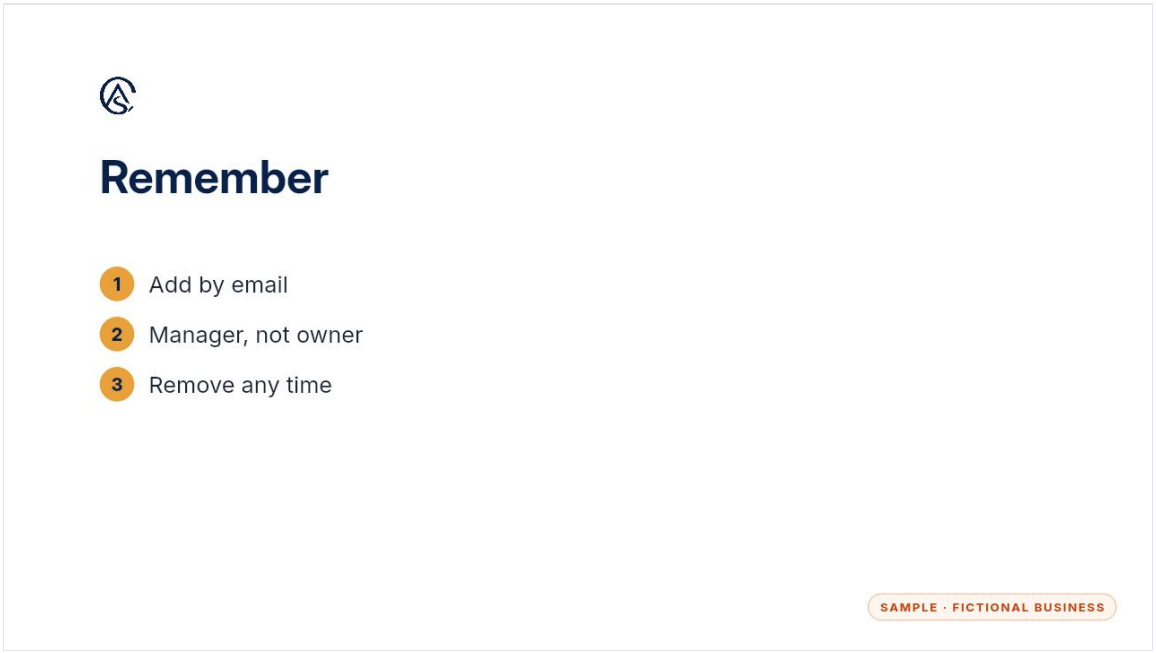

2 Open the profile's access settings. That's the list of everyone who can manage your profile.

3 Add their email and choose manager. For the Tune-Up, that's our email. You stay the owner.

4 You can remove a manager at any time, and nobody ever needs your password.

5 Add by email, as a manager, and remove them whenever you choose.
