GOOGLE PROFILE TUNE-UP · HOW DO I

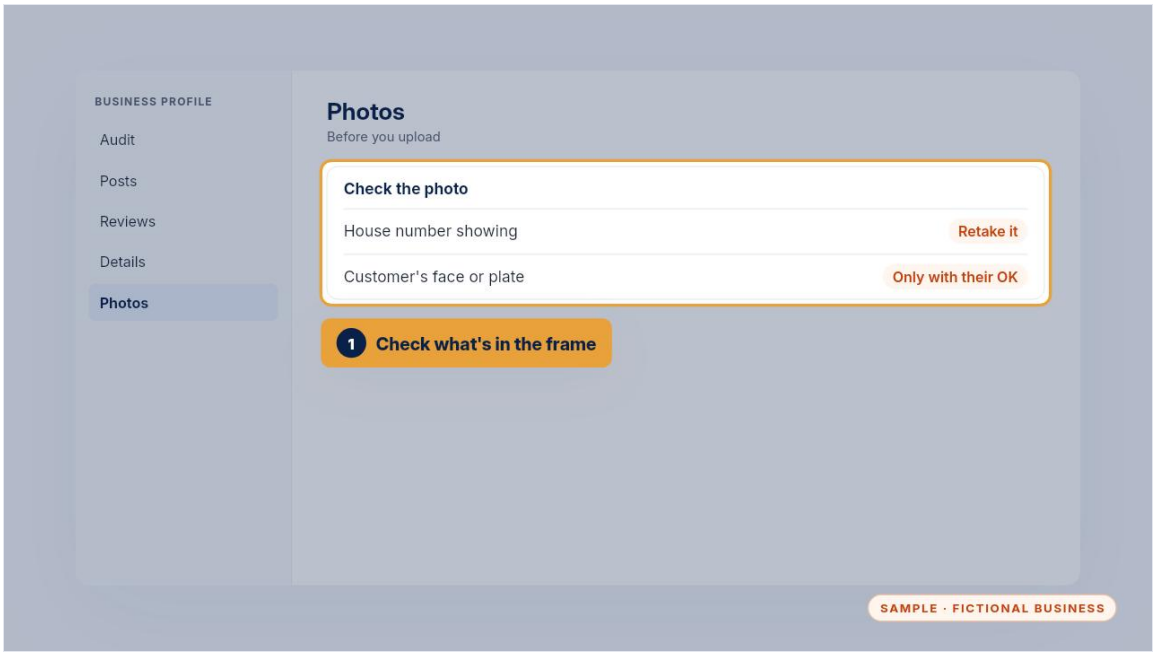

How do I add job photos safely?

Add real job photos every month without showing anything private.

1 Fresh photos keep your profile looking active. Here's how to add them safely.

2 Before you upload, check the frame. No house numbers, and no faces or plates unless the customer has said yes.

3 Upload real photos: a finished install, the team, a truck. Never stock photos.

4 Aim for about four new photos a month, and keep the originals in your own Google Drive.

Remember

1. Check the frame
2. Real work only
3. About four a month
