QUOTE & FOLLOW-UP ASSISTANT · HOW DO I

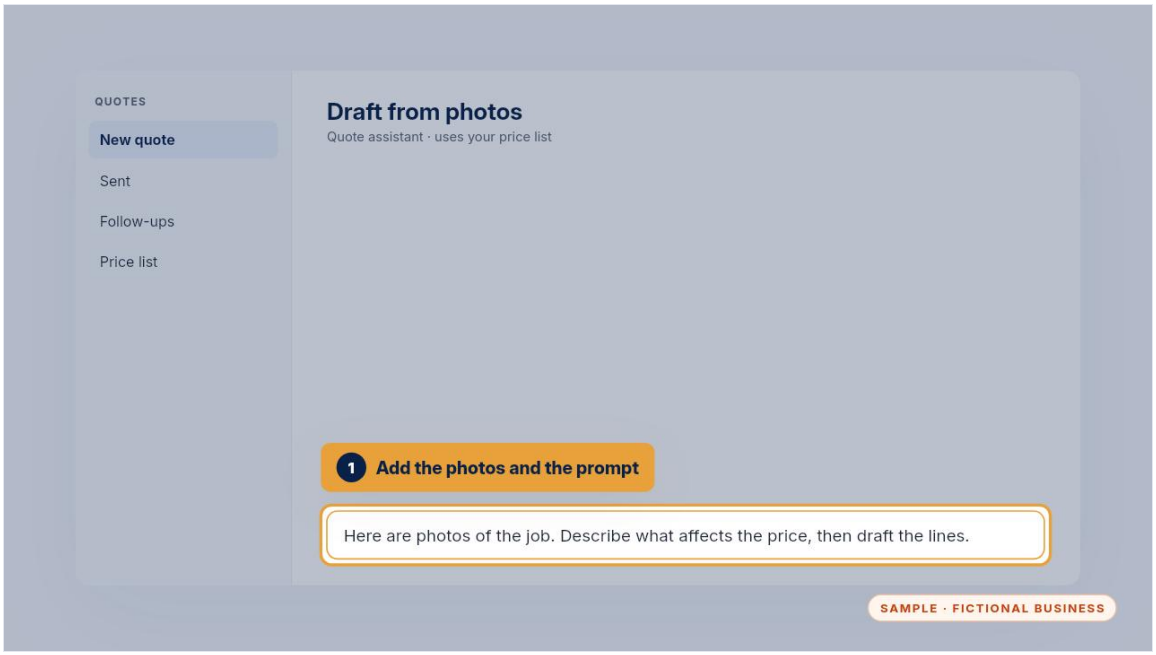

How do I draft a quote from photos?

Turn job photos into quote lines and assumptions to check.

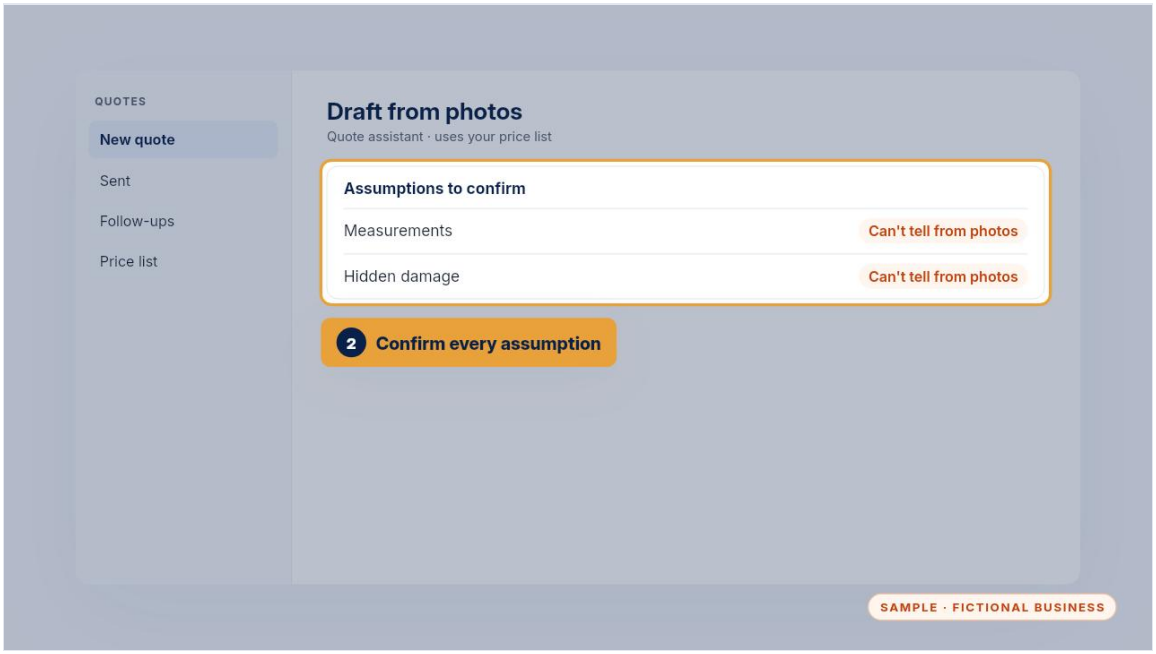

Watch the narrated video: https://openarmsolutions.com/guides/quote-follow-up/draft-a-quote-from-photos

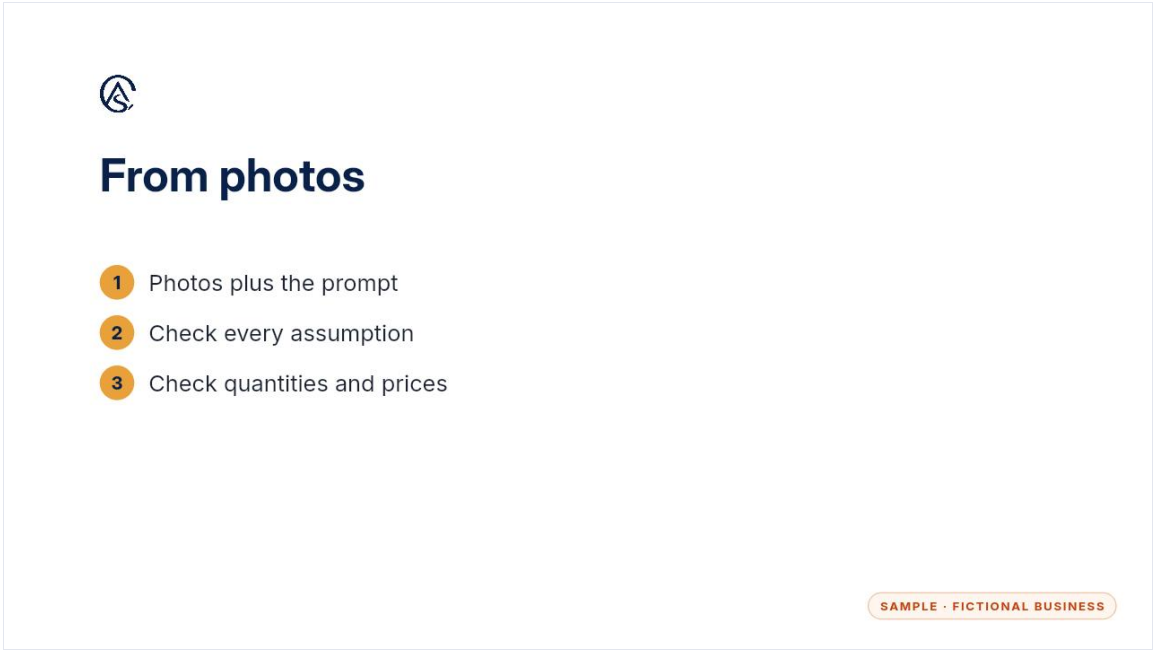

1. Photos of the job work as well as notes, in ChatGPT or Gemini. Here's how to get a draft from them.

2 Add the photos and use the from photos prompt. It describes what it sees that affects the price, then drafts the quote lines.

3 Anything it can't tell from the photos, like measurements or hidden damage, is marked as an assumption. Confirm each one before the quote goes out.

4 Check the measurements and quantities yourself, then approve it like any other quote.
