QUOTE & FOLLOW-UP ASSISTANT · HOW DO I

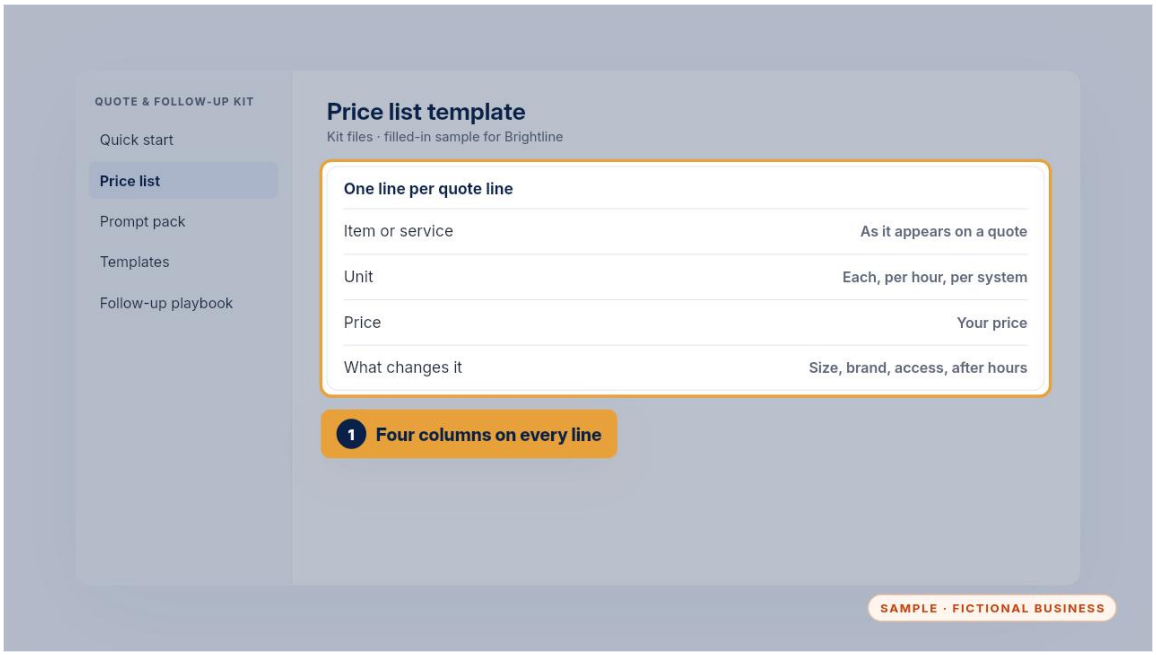

How do I fill in my price list?

Write prices the way an AI tool can quote from them.

1. The assistant quotes only as well as the price list you give it. Start with your ten most common items.

2 Write one line per item, the way it appears on a quote, not your supplier's codes. Always add the unit, because without it quantities go wrong.

3 Then say what changes the price. Brightline's diagnostic visit is eighty-nine dollars, waived if the repair is approved, and one hundred eighty-nine after hours.

4 Finish the rest later, including the items you quote less often.
