QUOTE & FOLLOW-UP ASSISTANT · HOW DO I

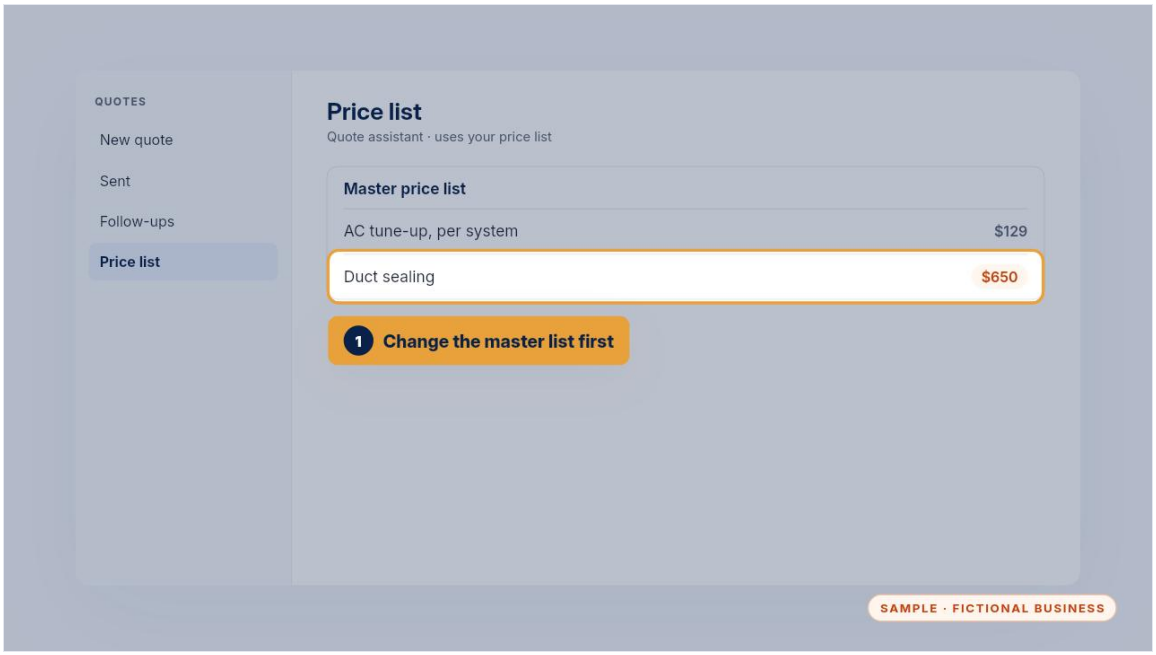

How do I update a price?

Change it once, then check the next draft uses it.

Watch the narrated video: https://openarmsolutions.com/guides/quote-follow-up/update-a-price

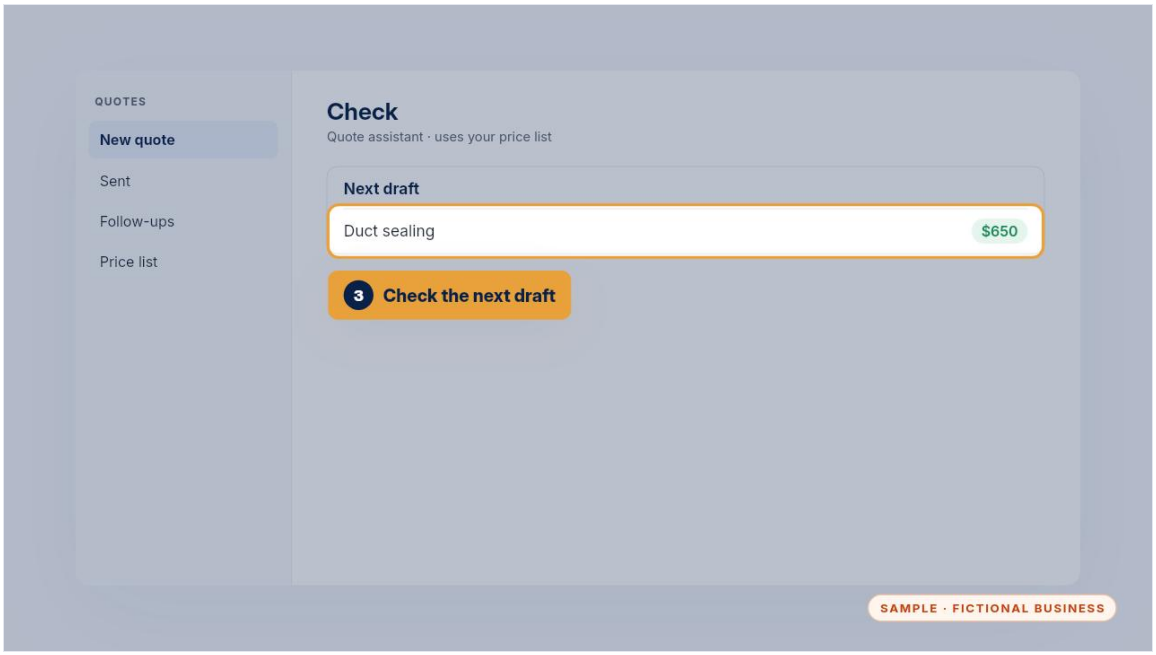

1 Prices change, like fall equipment prices. Here's how to make sure every new quote uses the right one.

2 Change the line in your master price list first. It's the only place you edit.

3 With the Kit, upload the new file to your Quotes project, replacing the old one. With the Install, new quotes use it at once, or text us and we'll change it.

4 Then draft a job that uses that price, and check the line shows the new number before you send anything.
