How do I talk through a quiz miss?

Read it again, ask what was tempting, read the why line.

1. When someone misses a quiz question, talk it through in three steps.

2 Read the question again, out loud. Then ask what made the other answer tempting. Usually it's a real situation they've been in.

3 Then read the why line from the answer key. Most misses are about rule one, the approved tools, or rule five, reporting the same day.

4 Note which questions the team misses most. On the Install, the test report lists them, and the walkthrough video covers those topics again.
